✉ alessio.miaschi@ilc.cnr.it • 🌐 <https://alemiaschi.github.io/>

I am a PostDoc at the ItaliaNLP Lab (ILC-CNR), Institute for Computational Linguistics (ILC-CNR). In 2022, I received my PhD in Computer Science at the University of Pisa.

My research interests lie primarily in the context of Natural Language Processing. I am particularly interested in the analysis and the definition of methods for inferring and evaluating representations from data, as well as in the development of NLP tools for building educational applications.

## Experience

---

- **Postdoctoral Research Fellowship** **Pisa, Italy**  
*Institute for Computational Linguistics "A. Zampolli", National Research Council* June 2022 – present
- **Research Fellowship** **Pisa, Italy**  
*Institute for Computational Linguistics "A. Zampolli", National Research Council* Febr. 2022 – May 2022
- **PhD Fellowship** **Pisa, Italy**  
*Institute for Computational Linguistics "A. Zampolli", National Research Council* Nov. 2018 – Oct. 2021
  - Research interests on NLP for education and on the analysis and interpretation of Neural Language Models.
- **Junior Developer** **Modena, Italy**  
*ADmantX (Expert System)* Oct. 2017 – Sept. 2018
  - Software development and brand planning/targeting through advanced Semantic Cognitive Technology and AI propensity profiling solution.
  - Improvement and development of client/server web based applications.
- **Internship** **Pisa, Italy**  
*Institute for Computational Linguistics "A. Zampolli", National Research Council* Oct. 2016 – Jan. 2017
  - Definition of a NLP system for tracking and evaluating the writing skill's evolution of junior high school's students.
- **Internship** **Pisa, Italy**  
*University of Pisa* April 2014 – Sept. 2014
  - Definition of a TEI scheme, manual annotation and web development for the realization of an ancient medieval manuscript's digital edition.

## Education

---

- **University of Pisa** **Pisa, Italy**  
*PhD in Computer Science* Nov. 2018 – May 2022
  - Thesis: *Tracking Linguistic Abilities in Neural Language Models*
  - Abstract: In the last few years, the analysis of the inner workings of state-of-the-art Neural Language Models (NLMs) has become one of the most addressed line of research in Natural Language Processing (NLP). Several techniques have been devised to obtain meaningful explanations and to understand how these models are able to capture semantic and linguistic knowledge. The goal of this thesis is to

investigate whether exploiting NLP methods for studying human linguistic competence and, specifically, the process of written language evolution is it possible to understand the behaviour of state-of-the-art Neural Language Models (NLMs). First, we present an NLP-based stylometric approach for tracking the evolution of written language competence in L1 and L2 learners using a wide set of linguistically motivated features capturing stylistic aspects of a text. Then, relying on the same set of linguistic features, we propose different approaches aimed at investigating the linguistic knowledge implicitly learned by NLMs. Finally, we propose a study in order to investigate the robustness of one of the most prominent NLM, i.e. BERT, when dealing with different types of errors extracted from authentic texts written by L1 Italian learners.

- Supervisors: Felice Dell'Orletta, Anna Monreale

- **University of Pisa** **Pisa, Italy**  
*Master's Degree in Language Technology (Digital Humanities)* *Feb. 2015 – May 2017*
  - Graduated Summa Cum Laude.
  - Thesis: *Definizione di modelli computazionali per lo studio dell'evoluzione delle abilità di scrittura a partire da un corpus di produzioni scritte di apprendenti della scuola secondaria di primo grado* (Definition of NLP-approaches for studying the evolution of writing competence starting from a corpus of junior high schools essays, AILC Master Thesis Prize 2017)
  - Coursework in Programming, Natural Language Processing (NLP), Data Mining and Linguistics.
- **University of Pisa** **Pisa, Italy**  
*Bachelor's Degree in Digital Humanities* *Sept. 2011 – Feb. 2015*
  - Coursework in Programming, Text encoding and Web design.

## Technical and Personal skills

---

- **Programming Languages:** Proficient in: Python, Javascript  
Also basic ability with: Java, R, C#.
- **Frameworks:** Tensorflow, Pytorch, Keras, Scikit-learn, Pandas, Numpy, NLTK
- **Web Skills:** HTML (CSS), Angular JS.
- **Languages:** Italian, English.

## Teaching

---

- Python per umanisti principianti (*Python for beginners*), Hands on: Strumenti digitali per le DH, May 10 – June 3 2021, Laboratorio di Cultura Digitale, University of Pisa (Online).
- Linguistica Computazionale (*Computational Linguistics*), BSc Digital Humanities, a.y. 2020/21, 2021/22 (Teaching assistant).
- Progettazione e programmazione web (*Web Design and Programming*), BSc in Digital Humanities, a.y. 2018/19, 2019/20 (Teaching assistant).

## Activities

---

- Reviewing for:
  - Conferences: ACL, EMNLP, COLING, LREC, CLiC-it, EVALITA, ACM UMAP, BEA Workshop (ACL)
  - Journals: Soft Computing
- Co-organization of PRELEARN and ATE\_ABSITA Shared Tasks at EVALITA 2020 (co-located event of CLiC-it 2020, Bologna).
- Co-organization of dissemination activities:
  - È Dante o non è Dante? Questo è il problema, October 27-29 2021, Festival della Scienza, Genova (Online), [http://www.festivalscienza.it/contents/instance2/static/programma\\_21\\_def.pdf](http://www.festivalscienza.it/contents/instance2/static/programma_21_def.pdf)
  - Ehi Siri, che cos'è la Linguistica Computazionale?, April 17 2021, Science Web Festival (Online), <https://sciencewebfestival.it/index.php/2021/04/09/ehi-siri-che-cose-la-linguistica-computazionale/>

## Invited Talks

---

- 13/12/2022: Invited Talk at "Ab urbe condita" seminar series organized by KDD Lab - Profiling Neural Language Models

- 27/10/2022: Tech Talk at the School of AI (Pi School) 2022 - Interpreting Neural Language Models
- 21/09/2022: Invited Talk at the International Summer School on "Advances in AI" 2022 - Profiling Neural Language Models

## Honors and Awards

---

- Special mention at CLiC-it 2020 (*Italian Transformers Under the Linguistic Lens*). Seventh Italian Conference on Computational Linguistics (CLiC-it 2020).
- Outstanding Paper for COLING 2020 (*Linguistic Profiling of a Neural Language Model*). 28th International Conference on Computational Linguistics (COLING 2020), December 2020, Barcelona (Online).
- AILC Master Thesis Prize 2017. Fourth Italian Conference on Computational Linguistics, Rome, December 11-13 2017.
